Yogo Sapphires, found only in Montana, are considered to be among the finest sapphires in the world. Their "cornflower blue" color gives them one of the most natural true-blue colors.

The gladdest moment in human life, methinks, is a departure into unknown lands.

**Montana's largest county by
population is Yellowstone County,
home to almost 159,000 people
according to 2017 estimates. That's 35
percent more people than the next
most-populated county (Missoula),
and 300 percent more than the
least-populated county (Petroleum).
Approximately 1 in 7 Montanans
live in Yellowstone County.**

AUTO INSURANCE

DESIGNED FOR AARP MEMBERS

Experienced Drivers 50+: You could save hundreds* on Auto Insurance when you switch to the **AARP® Auto Insurance Program from The Hartford.**

- Rates that reward you for your safe driving
- Exclusive package of benefits
- 24/7 Claim Hotline and exceptional claims service

*Savings may vary. The AARP Automobile Insurance Program from The Hartford is underwritten by Hartford Fire Insurance Company and its affiliates, One Hartford Plaza, Hartford, CT 06155. The Hartford pays royalty fees to AARP for the use of its intellectual property. These fees are used for the general purposes of AARP. AARP membership is required for Program eligibility in most states. Features, credits and discounts may vary and may not be available in all states in accordance with state filings and applicable law. Applicants are individually underwritten and some may not qualify.

Grief is not a
disorder, a disease
or a sign of weakness.
It is an emotional,
physical and spiritual
necessity, the price
you pay for love.
The only cure for
grief is to grieve.

~ Earl Grollman

No matter how few possessions you
own or how little money you have,
loving wildlife and nature will make
you rich beyond measure.

Cowboy work is more than a job; it is a life-style and a medium of expression.

~John R. Erickson

It's always been
easier for me to
help others

than to
help myself

As a Veteran, when someone raises their hand for help, you're often one of the first ones to respond. But it's also okay to get help for yourself. Maybe you want or need assistance with employment, stress, finances, mental health or finding the right resources. No matter what it is, you earned it. And there's no better time than right now to ask for it. **Don't wait. Reach out.**

PROTECTING YOUR KIDS ONLINE 2.0

CONNECT

Set some ground rules.

Establish clear guidelines like what types of sites kids can visit, apps they can download, and when they can have access to electronics. Consider “blackout” periods that require disconnection.

Research before you buy.

It’s important to learn about a device’s capabilities before you buy. Will it allow unknown people to communicate with my child? Will this allow children to make unchecked purchases?

Go beyond safeguards.

Installing monitoring software doesn’t guarantee your child will be safe online. Time, attention and active conversation are the best tools to protect them.

REPORT!

If your kids are dealing with cyberbullies or potential online enticement, report it to the website, cell phone provider, law enforcement or CyberTipline.org

LEARN

Know the platforms.

Online enticement happens across all platforms, so be aware of the sites, games and apps your children frequent. Ask them to show you how they use them.

Be proactive.

Teach your kids to spot common tricks used by online offenders. In NCMEC CyberTipline reports, the most common tactics used to entice a child online were:

- Engaging the child in sexual conversation/roleplay as a grooming method.
- Directly asking the child for sexually explicit images of themselves, or offering to mutually exchange images.
- Developing a rapport with the child through compliments and other supportive behaviors such as “liking” their online posts.
- Sending unprompted sexually explicit images of themselves.
- Pretending to be younger.
- Offering incentives for explicit content.

Spot the Red Flags.

A child who is experiencing online enticement may be:

- Spending increasing time online.
- Getting upset when he or she is not allowed on their device.
- Taking extra steps to conceal what they are doing online.
- Receiving gifts from people you don’t know.

ENGAGE

Talk about it!

Your kids might not tell you everything, but ask anyway. Regular conversations about safety can go a long way in increasing trust and communication.

Get involved.

Challenge them to a duel. If you have kids who like to play online games, ask if you can play, too. When you respect their interests, they’re more likely to respect your rules.

Don’t pull the plug.

Taking away internet access because they may have made mistakes online doesn’t solve the problem. Talk to them about protecting themselves and respecting others online.
